You can feel good about buying from a company that understands how important our forests are.

Each year Coventry Log Homes, Inc. gives back a portion of its sales to individuals and organizations who work hard to preserve our natural resource.

Below is a small number of organizations or individuals we are proud to stand behind with our support. We encourage you to support them as well.

The Arbor Day Foundation

***At Coventry Log Homes
we know how important our forests are
to the health of our planet.***

***Our forests are a natural
resource that must be managed
so future generations can enjoy
the benefits too.***

Did you know?

Over the course of 50 years
a single tree can:

Generate \$31,000 worth of oxygen,

Provide \$62,000 worth of
air pollution control,

Recycle \$37,500 worth of water,

And Control \$31,500 worth of
soil erosion?

A single tree can do
all this and more! *

New Hampshire, home to Coventry
Log Homes, has the second highest
percentage of forest land of any
state in the country, following Maine.
Nearly 85% of our state's 5.7 million
acres is forested; that's 4,819,000
acres in all.*

* Facts taken from the National Arbor Day Foundation
and NH Project Learning Tree

Organizations and individuals
have played important roles
in encouraging the healthy
growth of our forests.

Educators teach others to
appreciate and look after
our forests.

Organizations have been
responsible for mass tree
plantings in places that have
been devastated by wild fires
in order to regenerate a lost
forest.

Loggers take vibrant regrowth
into consideration when
deciding which best conservation
methods to employ when
harvesting the trees.

***We support and applaud
responsible eco-friendly efforts to
sustain our renewable resources.***
